The structure has a square in the middle of it, an L shaped portion to the left, a semi-circular portion to the right, and air tight cylindrical metallic encasings or chambers with domes on top (see sketch on page 1). There is an animal (dolphin or snail) symbol engraved on a metal object. Inside, there are corridors and lights which travel down long tubes at an accelerated rate (see sketch on page 2). AOL-Hamster tube. This place is clean. AOL-museum, hospital, science plant. In a section of this structure, there is a camera and a telescope which magnifies images optically on a stand. Also, a white table and a thick lens glass instrument which is slide projector shaped. A large red thing with white bubbles is present. AOL-planes. A florescent green light material turns on a wheel instrument and a triangular portion is attached.
